

YECREA Mission Statement

The objective of the Young Scholars Network of the European Communication Research and Education Association (YECREA) is to give a voice and provide a network within ECREA specifically for the young generation of European Media and Communication scholars. This includes (but is not limited to) doctoral students and post doctoral researchers.

YECREA's goal is to provide young scholars with relevant information, stimulate PhD initiatives aimed at PhD support, and create forums where young scholars can share ideas, get peer support and peer review.

YECREA aims to provide a bridge between the young generation and the advanced members of ECREA, to stimulate both communication and collaboration between the two.

The YECREA network connects through the community portal that is the YECREA website (www.yecrea.eu), a mailing list, and a regular newsletter.

YECREA also aims to be present at workshops and conferences that are organised by ECREA or its sections.
