

Communication Law and Policy section

We finished a joint conference that we organised in Helsinki in November 2019 and immediately started preparing in the following months additional public events and meetings in 2020. However as Covid-19 started spreading in January 2020 throughout Europe, all of our discussion and plans were one by one prevented and finally cancelled due to impossibility of public events, travelling and other obstacles. We were in talks regarding a number of potential events in 2020, to present our work, including one with RIPE / EBU in Geneva in the fall of 2020, but also these discussions (with abstracts already gathered and selected) were completely stopped in Spring 2020, and we couldn't provide much / any public results in 2020.
